

### Amazing Snowflake

Did you know that every snowflake has its own unique shape and is different than all other snowflakes? Real snowflakes are made of ice crystals, but you can make your own from a round coffee filter.

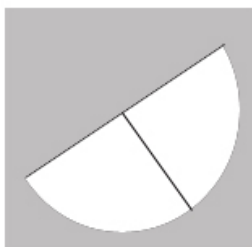

1. Begin with a flat round white coffee filter.

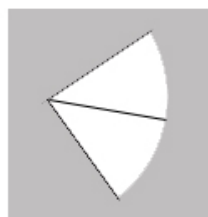

2. Fold the filter in half.

3. Fold it in half again.

4. Fold it in half one more time.

5. Now, snip little pieces out of the three sides.

6. Unfold and enjoy your snowflake. No two snowflakes will be exactly alike.
