

Name \_\_\_\_\_

**Overview:** 1) An adult **butterfly** lays **eggs** on a leaf. 2) The **eggs** hatch into a **caterpillar** also known as larva. 3) The **caterpillar** forms a hard shell called a **chrysalis** or **pupa**. 4) The chrysalis matures into an adult butterfly. The adult butterfly lays **eggs**, and the **life cycle** of a butterfly begins again. This process of **change** is called **metamorphosis**.

**Directions:** Cut out the pictures below and glue them in the correct order above.
